

**Review of Physics Terminology**

1. base unit	21. acceleration
2. derived unit	22. acceleration
3. significant figures (digits)	23. scalar
4. least (number of) decimal places	24. vector
5. least (number of) significant figures	25. distance
6. rounding	26. displacement
7. scientific notation	27. speed
8. error	28. velocity
9. random	29. scalar vector
10. systematic	30. scalar vector
11. random	31. average speed
12. systematic	32. instaneous
13. parallax	33. uniform
14. independent	34. displacement
15. dependent	
16. x (horizontal)	
17. y (vertical)	
18. interpolate	
19. extrapolate	
20. speed (velocity)
